DATA SHEET

Controls mites and lice on ornamental birds and their environment. Protects for up to 6 weeks.

Instant control of pests on contact with additional 6 week residual protection against reinfestation. Penetrates into the plumage of birds to kill mites and lice under the feathers and on the skin. 100% safe for use on all birds.

Directions: Use a 5% solution of concentrate (1 part concentrate made to 20 parts total volume with water e.g. 50mL/L). Shake well before use.

Recommended for: Use on mites, lice, flies, spiders, ants or any situation where external parasites are a problem, including nest boxes, flights, perches, aviary floors, indoor cages and for direct application to the bird.

Active Constituents:

Piperonyl Butoxide, Permethrin, Methoprene

Size: Available in 100mL and 500mL.

Item# 100mL - 00275, 500mL - 00003

APVMA approval number: 47318/0205

Expiry: 2 years from date of manufacture.

A.I.L READY TO USE AVIAN INSECT LIQUIDATOR

Controls mites and lice on ornamental birds and their environment. Protects for up to 6 weeks.

Instant control of pests on contact with additional 6 week residual protection against reinfestation. Penetrates into the plumage of birds to kill mites and lice under the feathers and on the skin. 100% safe for use on all birds.

Directions: (a) To control Avian Mite (*Dermanyssus* spp, *Ornithonyssus* spp) and Lice (order Mallophaga): Spray directly onto bird by holding spray 30-40cm from the bird.

(b) Environment: Spray aviary, perches and nest boxes thoroughly. One spray should give up to six weeks protection.

Recommended for: Use on mites, lice, flies, spiders, ants or any situation where external parasites are a problem, including nest boxes, flights, perches, aviary floors, indoor cages and for direct application to the bird.
