DATA SHEET

Literally saves lives when administered to birds that are sick, stressed or injured by providing critical nutrients in a concentrated direct dose. Contains sustained release carbohydrates for ongoing energy, Probotic® to restore gut flora, essential proteins, vitamins and electrolytes to assist in recovery from illness and stress. Can be administered directly via medication needle or added to food sources for animals eating voluntarily but require additional dietary support to make a stronger recovery.

Safety Directions: Avoid contact with eyes.

Directions: Add 5mL of water to 10g of Poly Aid Plus and make into a slurry. Make fresh daily for each use, discard any unused portion.

Birds/Small Animals: Administer as required.

Recommended for: Use as a first aid supplement for sick, injured or stressed birds and small animals that are not eating voluntarily.

Can Be Used With: Poly Aid Plus is a welcome addition to a bird keeper's first aid kit, along with Spark Liquid and Avian Crittacare.

Active Constituents: Probotic® contains: 180 Million CFU/g as Lactobacillus acidophilus; L. delbrueckii subspecies bulgaricus; L. plantarum; L. rhamnosus; Bifidobacterium bifidum; Enterococcus faecium; Streptococcus salivarius subspecies thermophilus
