DATA SHEET

A carbohydrate and electrolyte replacement for birds and animals for use during times of stress, high temperatures, illness or transport.

- ★ Sustained release energy supplement and electrolytes.
- ★ Water soluble supplement ideal for use in times of stress, high temperatures, illness or transport.

Hydrates and supports birds during times of extreme temperature and during transportation or during showing. Provides energy and electrolytes to assist birds in recovery from illness or stress. Will increase vigour and vitality in birds on show or displayed for sale. Can be administered directly in emergency situations to provide fast acting energy.

Directions: Add 20mL to 1L of drinking water.

Use as the sole source of water and prepare fresh solution daily.

Recommended for: Use in aviary birds drinking water in times of extreme temperature or as a first aid supplement for sick, stressed or injured birds. Also an invaluable tool for birds in transport or on show.

Can be used with: Spark Liquid is welcome addition to a bird keeper's first aid kit, along with Poly Aid Plus and Avian Crittaccare.

Active Constituents: Each Litre contains:

Glucose 135g, Citrate ions 30.31g, Sodium ions 13g, Potassium ions 20g
