DATA SHEET

Water soluble bird wormer for use in water, or given directly to the bird via crop needle.

- ★ All wormer.
- ★ Safe and effective.

Effectively kills all intestinal worms including roundworm, hookworm, caecal worm, thread worm, and tapeworm. Completely safe and can be mixed with a small amount of orange juice for fussy drinkers.

Directions: Drinking water dose: Dilute Wormout Gel with water recommended dose rate and provide this as the sole source of water for 2 days.

All aviary birds: Add 2mL of Wormout Gel to 160mL of drinking water.

Pigeons: Add 2mL of Wormout Gel to 320mL of drinking water. Repeat once every 3 months.

Crop Needle Dose: Use a small syringe for accurate dosing. Carefully dilute 1mL of Wormout Gel in 9mLs of water to make 10mL of 'stock solution'.

Give 0.5mL of stock solution per 100g body weight.

Give treatment once only. Repeat once every 3 months.

Recommended for: Use as an all wormer in birds.

Can Be Used With: Wormout Gel should not be mixed with other treatments or supplements.

Active Constituents:

20g/L Praziquantel, 20g/L Oxfendazole

Size: Available in 50mL, 100mL, 250mL, 1L.

Item# 50mL - 00328, 100mL - 00327, 250mL - 00147, 1L - 00329

Expiry: 1 year from date of manufacture.

APVMA approval number: 52276/51694
